WORK EXPERIENCE

Quality Analyst

AUG 2019 - JAN 2025

Omega Health Care Private Limited, Trichy

Responsibilities Include:

- Consistently ensured coding accuracy ICD -10, CPT, E/M and regulatory compliance (CMS, UHDDS) via audits and process improvements.
- Proactively identified and reported coding errors, providing constructive feedback to enhance coders performance and efficiency.
- Developed and implemented QA processes to optimize coding accuracy and workflow, leveraging expertise in global surgical packages (pre-op, intra-op and post-op).
- Collaborated with coding managers and supervisors to address coding quality issues.
- Mastered coding software's 3M, Encoder pro, EPIC, CITRIX for précised assignment and compliance with federal, state and payer regulations.
- Accurately assigned E/M codes based on patient history, examination, and medical decision-making (MDM).
- Stayed in accordance with payer-specific rules for surgical coding.
- Applied appropriate coding guidelines for initial, subsequent and observation care.
- Effectively communicated coding quality issues and recommendations to coders, managers, and other stakeholders.
- Reviewed inpatient medical records to ensure proper DRG assignment for reimbursement.
- Regularly communicated with clients to address chart queries and software tool-related issues.
