SUMMARY

DHA-eligible Registered Nurse with 4+ years of acute care expertise in Medical-Surgical, OPD, and Emergency settings. Currently based in Dubai and immediately available. BLS & ACLS certified with comprehensive experience in emergency resuscitation protocols, perioperative care, surgical wound management, post-surgical complication monitoring, and critical patient assessment. Proficient in EMR systems and SBAR communication and experienced in managing high-acuity cases (DKA, AKI, trauma, and surgical emergencies) while ensuring patient safety and quality care standards. Culturally competent professional skilled in delivering evidence-based nursing care across diverse patient populations.

WORK EXPERIENCE

Medical & Surgical Units

Jan 2025 – Dec 2025

Asiri Hospital, Kandy, Sri Lanka.

- Managed 7-12 high-acuity patients per shift across the 40-bed Medical-Surgical unit, and maintained healthy patient satisfaction scores over the period.
- Managed complex pharmacological protocols, including insulin regimens, anticoagulation monitoring, controlled medications, and PRN drug administration with ongoing evaluation.
- Performed advanced procedures: IV cannulation, phlebotomy, tracheostomy management, airway suctioning, chest physiotherapy, and bladder irrigation.
- Managed post-operative drainage systems for 80+ surgical patients, maintaining chest drains, Jackson-Pratt, and Hemovac devices effectively.
- Executed safety initiatives, including fall prevention strategies, pressure injury assessment, DVT prophylaxis protocols, and mobility enhancement programs.
- Facilitated effective care transitions using the SBAR communication framework and maintained comprehensive electronic health record documentation.

Emergency Treatment Unit

June 2024 – Jan 2025

Asiri Hospital, Kandy, Sri Lanka.

- Managed an average of 15-20 emergency patients per 12-hour shift in a high-volume trauma unit.
- Conducted trauma assessments using ABCDE methodology for road traffic accidents, burns, and cardiac events.
- Performed CPR and emergency resuscitation on critically ill patients with 85% successful stabilisation rate.
- Managed critical IV drug therapy, administered time-critical medications including vasopressors and thrombolytics under physician supervision
- Executed urgent procedures: immobilisation techniques, wound care assistance, emergency catheterisation, and imaging preparation.
- Collaborated with a multidisciplinary team to reduce patient wait times by maintaining efficient triage protocols

Medical & Surgical Unit and OPD

June 2022 – June 2024

Royal Care Hospital Kandy, Sri Lanka.

- Managed patients with multi-organ complications, including acute kidney injury requiring fluid balance monitoring, diabetic ketoacidosis management, and sepsis
- Provided respiratory care, including incentive spirometry coaching, peak flow measurement, continuous pulse oximetry monitoring, and assisted with non-invasive ventilation management.

- Conducted 30+ outpatient assessments daily in OPD clinic, performing vital parameter recording, complaint evaluation, and efficient patient routing while maintaining an average 15-minute consultation times.
- Executed minor clinic procedures: wound care with sterile technique, surgical closure device removal, electrocardiogram testing, and biological sample procurement.
- Administered pre-transfusion compatibility checks, monitored blood product infusions for adverse reactions, and managed transfusion-related complications
