### Registered Nurse

Community Health Center | Kerala, India

*June-2021 to October-2021*

Provide direct care to COVID-19 patients, including monitoring vital signs and administering treatments. Follow infection control protocols by using personal protective equipment (PPE) and maintaining a safe environment. Assess and document patient symptoms, progress, and responses to treatment. Monitor and report any changes in patient conditions or adverse reactions to treatments. Respond to emergency situations promptly and provide necessary interventions.

### Registered nurse (Surgical ICU)

Fortis Hospital | New Delhi, India

*March-2020 to April-2021*

- Evaluated patient care needs, prioritized treatment and maintained patient flow.
- Accurately documented all elements of nursing assessment, treatments, medications, discharge instructions and follow-up care.
- Applied wound management protocols and procedures to facilitate patient recovery goals.
- Managed BiPAP, CPAP, IV PICC, central lines, media ports and peripheral lines accurately to avoid issues and enhance patient care.
- Assisted doctors during examinations and procedures, enhanced efficiency.
- Set up trays, supplies and sterile fields for office procedures.
- Controlled narcotics and administered medicines on set schedule.
- Quickly responded to medical emergencies, working calmly and professionally under pressure
