SUMMARY

As an experienced healthcare professional with over four years of experience in nursing, I hold a Post Basic Bsc degree in Nursing and have comprehensive experience particularly in NICU and outpatient departments. With a solid foundation in healthcare, I bring proficiency in managing intravenous fluids, patient care, and ensuring comprehensive nursing care. My commitment to upholding high standards in infection control and patient relationships defines my approach to nursing. a valid DHA license

Staff Nurse professional with 4.10 years of experience in neonatal intensive care and outpatient care, expert in patient care and medication management. My key achievements include providing high-quality care to newborns in the Special Newborn Care Unit and effectively managing outpatient department operations. Seeking a Staff Nurse position, where I bring my patient care and medication management skills to support your mission of providing excellent healthcare services. Adept at delivering comprehensive medical care, managing health programs, and working collaboratively with students, parents, and staff. Excellent communication and interpersonal skills with a proven track record in promoting student health and well-being.
