- **Clinical Chemistry**
university hospital Sharjah and al qasimi women's and children's hospital
- **Histopathology**
university hospital Sharjah
- **Blood Banking**
Blood Transfusion and Research Center,UHS

STUDENT GRADUATION PROJECT

Parasites (Blastocystis)

The project team worked on the complete life cycle of the Blastocystis, the origins of the disease were identified which most likely is transmitted from animals.

Based on the identified symptoms, 45 samples were analyzed which 28 of which turned out positive.
