ABOUT ME

Accomplished and licensed Retail Pharmacist with over 12 years of experience in the pharmacy sector. I possess a proven track record in managing pharmacy operations, ensuring precise prescription processing, and delivering outstanding customer service. My skills include drug therapy planning, research, and effective team collaboration. I am adept at applying my technical knowledge and leadership abilities to advance organizational and research objectives. I seek to leverage my extensive experience and expertise in a challenging role that will contribute to company success and support research initiatives.

RESPONSIBILITIES

- Oversee the daily operations of the pharmacy to ensure efficient workflow and compliance with health regulations.
- Review and validate prescriptions for accuracy, appropriateness, and dosage, ensuring adherence to legal and safety standards.
- Develop and implement effective drug therapy plans, providing consultations to patients and healthcare providers.
- Monitor and manage inventory levels, including the ordering, receiving, and stocking of medications while ensuring proper storage conditions.
- Deliver exceptional customer service by addressing patient inquiries, resolving issues, and providing medication counseling.
- Ensure compliance with all regulatory requirements and pharmacy standards, including accurate record-keeping and the handling of controlled substances.
- Supervise and mentor pharmacy staff, fostering a collaborative environment and promoting continuous professional development.
- Implement and oversee quality assurance procedures to guarantee the safe and effective dispensing of medications.
- Contribute to research projects and clinical trials, including data collection and analysis related to medication efficacy and safety.
- Assist in budget planning and financial management of the pharmacy, focusing on cost control and expense tracking.
- Accurately dispense medications based on prescriptions, verifying medication interactions and patient allergies.
- Provide comprehensive counseling to patients regarding medication usage, side effects, and lifestyle modifications.
- Verify the accuracy of prescription orders, including dosage, directions for use, and potential drug interactions.
- Manage pharmacy stock, including receiving shipments, checking for expired items, and organizing inventory.
- Conduct basic health screenings and provide recommendations for over-the-counter products and preventive care.
- Maintain precise and detailed records of prescriptions, inventory, and patient interactions, ensuring confidentiality and compliance with privacy laws.
- Collaborate closely with healthcare providers to address patient needs, resolve medication-related issues, and enhance patient care.
- Process and fill prescriptions accurately, ensuring the correct medication and dosage while addressing any discrepancies.
- Offer professional advice and support to customers, including explaining medication instructions and addressing concerns.
- Oversee inventory management by monitoring stock levels, placing orders, and ensuring proper storage of medications.
- Provide detailed information regarding medication usage, potential side effects, and interactions with other drugs.
- Comply with local and national pharmacy regulations, maintaining up-to-date knowledge of legal requirements and standards.
- Educate patients on the proper use of medications and health management practices to enhance overall well-being.
- Perform administrative tasks, including maintaining records, processing insurance claims, and managing pharmacy documentation.
