### SUMMARY

- Dedicated and compassionate Registered Nurse (RN) with one year of clinical experience in patient care, critical thinking, and medical procedures. Proficient in monitoring vital signs, administering medications, IV therapy, and providing holistic support to patients and families. Skilled in pediatric and critical care environments with strong knowledge of infection control, emergency response, and post-surgical care. Committed to delivering safe, high-quality healthcare in fast-paced medical settings while ensuring patient comfort and well-being

### EXPERIENCE

- **Pediatric ICU Nurse | NICU Nurse |**

| KS Abdullah Hospital, Kasargod, Kerala, India | June 2024 – September 2025

Provide comprehensive care to critically ill pediatric and neonatal patients in ICU and NICU settings.

Administer medications, IV fluids, and nutrition as per physician orders.

Monitor vital signs, respiratory status, and neurological function to detect early deterioration. | Perform neonatal resuscitation and stabilization in emergency cases.

Assist in emergency procedures including intubation, CPR, and central line placement.

Operate and manage medical equipment such as ventilators, infusion pumps, and monitors.

Provide pre- and post-operative care for pediatric patients undergoing surgery.

Ensure strict adherence to infection control and patient safety protocols.

Train and guide junior nurses, interns, and nursing students in pediatric and neonatal care practices.

Assist in pain management and palliative care for critically ill children.

Educate and support families by explaining treatment plans and recovery expectations.
