PROFILE

Compassionate and dedicated Registered Nurse with proven experience in medical-surgical and acute care settings. Skilled in patient assessment, medication administration, emergency response, and comprehensive care planning. Experienced in monitoring critical patients, operating cardiac and life-support equipment, and maintaining accurate electronic medical records. Recognized for strong clinical judgment, teamwork, and commitment to delivering safe, evidence-based, patient-centered care. Seeking to contribute clinical expertise and compassionate service to a dynamic healthcare organization.

CORE SKILLS & ATTRIBUTES

- Critical Care: Ventilator patient care, emergency care, and vital signs monitoring.
- Clinical Procedures: Medication administration, wound dressing, and suture removal.
- Specialized Equipment: BiPAP, CPAP, IV PICC, central lines, and cardiac monitoring.
- Diagnostics: Electrocardiogram (ECG) usage, pulse oximetry, and lab specimen collection.
- Patient Management: Admission, discharge, transfer, and electronic medical record (EMR) maintenance.

PROFESSIONAL EXPERIENCE
