 Sharjah

DEAR HR,

I am writing to express my interest in the nursing position of your health care organisation. I am a registered nurse with one year of experience in the Surgical Intensive Care Unit (SICU), where I have developed strong clinical competencies, critical thinking skills, and the ability to perform under pressure. I am certified in both Advanced Cardiovascular Life Support (ACLS) and Basic Life Support (BLS).

In my current role, I care for post-operative and critically ill patients, requiring constant assessment, quick decision-making, and effective coordination with the healthcare team. I have frequently responded to life-threatening emergencies such as cardiac arrests and respiratory failure, where I've been able to remain calm, act decisively, and ensure timely interventions.

Beyond my clinical duties, I have also taken initiative in mentoring new staff, coordinating care during high-acuity situations, and leading shift handovers. These experiences have helped me develop strong leadership abilities, effective communication skills, and a proactive approach to problem-solving – whether it's managing a sudden change in a patient's condition or resolving team workflow challenges.

I believe my combination of hands-on ICU experience, ability to lead during critical situations, and strong problem-solving mindset would allow me to make a meaningful contribution to your team. I am available for an interview at your convenience.

I would welcome the opportunity to discuss how my background aligns with your hospital's needs. Thank you for considering my application. I look forward to the possibility of joining your esteemed healthcare team.

YOURS SINCERELY

Jobina Paul
