Date of birth	30 Jan 1989	Nationality	Indian
---------------	-------------	-------------	--------

PROFILE

Highly dedicated and results-driven Registered Nurse with over 12 years of clinical excellence across Emergency, Medical–Surgical, Gynecology, and OPD settings in UAE, Saudi Arabia, and India. Licensed under the UAE Ministry of Health (MOH), with proven expertise in acute care, patient triage, medication administration, infection control, and emergency response management. Adept at delivering compassionate, evidence-based care while collaborating with multidisciplinary teams to enhance patient outcomes. Recognized for maintaining composure in high-pressure environments, mentoring new nurses, and ensuring compliance with UAE healthcare quality and safety standards.

PROFESSIONAL EXPERIENCE

May 2018 — Present	Registered Nurse, NMC Medical Center	Sharjah
--------------------	--------------------------------------	---------

- Provide comprehensive nursing care across Emergency and OPD units, ensuring the highest levels of patient safety and satisfaction.
- Triage and assess patients efficiently to prioritize emergency interventions based on clinical condition.
- Administer IV medications, infusions, and blood transfusions as per MOH-approved guidelines.
- Deliver accurate documentation of patient assessments, care plans, and progress notes.
- Actively participate in nursing audits, infection control programs, and clinical quality initiatives.

2015 — 2018	Emergency Department Nurse, King Khaled Civilian Hospital	Tabuk
-------------	---	-------

- Managed emergency cases involving trauma, cardiac, and respiratory patients with precision and urgency.
- Assisted in pleural tapping, lumbar puncture, wound suturing, and other emergency procedures.
- Monitored vital signs and coordinated with the medical team for effective treatment planning.
- Ensured proper infection control practices in high-risk areas of the emergency unit.
- Assist physicians during CPR, intubation, tracheostomy changes, suturing, lumbar puncture, and wound management.
- Operate and monitor mechanical ventilators, cardiac monitors, infusion and syringe pumps, ECG, and BIPAP devices.

2011 — 2014	Staff Nurse, BCJ Hospital & Asha Parekh Research Center	Mumbai
-------------	---	--------

- Delivered nursing care in Medical, Surgical, and Gynecology wards, maintaining patient safety and comfort.
- Assisted in pre- and post-operative care, wound dressing, and patient mobilization.
- Documented admissions, discharges, and progress reports accurately.
- Collaborated with multidisciplinary teams to ensure smooth patient flow and timely interventions.

KEY SKILLS

Emergency Nursing	Patient Communication
Patient Triage	Team Leadership
IV Cannulation	Time Management
Medication Administration	Decision Making
Critical Care	Multitasking
Wound Management	Clinical Documentation
Tracheostomy Care	Emotional Intelligence
PEG Feeding	Crisis Response
Blood Transfusion	Problem Solving
