Objective

Dedicated and compassionate Registered Paediatric Nurse with over 3 years of experience in paediatric, neonatal, and recovery care. Proven expertise in delivering evidence-based, patient-centered care in high-pressure environments. Skilled in communication, collaborative teamwork, and problem-solving to enhance patient satisfaction and outcomes. Eager to join a dynamic team in the UAE to provide exceptional nursing care and make a meaningful impact on children's lives.

License & Registrations

Dubai Health Authority (DHA) — Eligibility Letter Issued

Registered Paediatric Nurse (RPdN) — Home country license

Basic Life support (BLS) certification— 2025

Experience

Reddington Multispecialist Hospital | 2025 - present

Registered Paediatric Nurse (Neonatal Intensive Care Unit)

- Provided specialized care to critically ill or premature infants in the NICU, including continuous monitoring of vital signs, assessment of conditions, and early recognition of distress or complications.
- Administered medications and intravenous fluids using infusion pumps, syringe drivers, and other methods; implemented prescribed treatments.
- Managed respiratory support (e.g., oxygen therapy, CPAP, mechanical ventilation) and nutritional support (e.g., tube feeding).
- Cared for infants in incubators, on ventilation, and under phototherapy.
- Ensured proper functioning of NICU equipment, including incubators, ventilators, and monitors.
- Collaborated with neonatologists and specialists to develop and implement care plans; handled admissions, discharges, and meticulous documentation.
- Educated parents on infant care, including feeding, hygiene, safety, and recognizing issues; explained conditions and treatment plans.

Atlantis Paediatric Hospital | 2025 – present

Locum (Bank) Staff– NICU

- Collaborated with multidisciplinary teams as a patient advocate to ensure high-quality care delivery.
- Adhered to safe medication administration policies, including narcotics within scope of practice.
- Monitored patient conditions and reported changes to relevant personnel.
- Demonstrated sensitivity to patients' comfort and privacy while supporting their progress.

University Of Ilorin Teaching Hospital | 2023 - 2024

Paediatric Course Nurse (in training)

(Rotated across Paediatric Emergency Unit, Paediatric Medical Ward, Paediatric Surgical Ward, Neonatal Intensive Care Units, and Paediatric Clinic)

- Assisted with newborn resuscitation and general newborn care, including feeding, warmth provision, weighing, vital signs monitoring, and cord care.
- Provided care for paediatric patients, including medication administration, vital signs monitoring, and IV therapy.
- Educated patients and families on conditions, treatments, and prevention; monitored progress and noted changes.
- Offered emotional support to patients and families.

Krystal Medical Center | 2021 - 2023

Registered Nurse

- Managed patient admissions and discharges.
- Delivered general patient care, including medication administration, vital signs checks, and monitoring.
- Prepared operating theatres using sterile techniques; circulated during surgeries and provided postoperative care.
- Cared for infants by mother's side, in incubators, and under phototherapy.
- Administered oxygen and cared for intubated patients.
- Performed wound dressing and care of ulcer.
- Carried out Outpatient and Emergency patient care.
- Conducted patient education and discharge instructions.
- Maintained accurate patient records.
