## Objective

---

Graduate with a strong foundation in medical terminology, anatomy, and physiology, complemented by recent Medical Coding training. Demonstrates a comprehensive understanding of medical coding systems including CPT, ICD-10, and HCPCS to accurately process insurance claims. Highly skilled in claims resolution, administrative denials, and appeals management. Proven ability to identify claim discrepancies, assess data for inaccuracies, and collaborate with cross-functional teams to ensure proper claim adjustments.

## Experience

---

**Omega Healthcare Solutions | Trainee coder | Project – Athena Denials** [March 2025- August 2025]

- Analysed denied medical claims to determine root causes and implement corrective actions, ensuring timely reimbursement.
- Managed a wide range of denial scenarios, including coding errors, authorization lapses, and eligibility issues.
- Collaborated closely with internal teams to rectify claim discrepancies, resubmit corrected claims, or initiate appeals in alignment with payer-specific protocols.
- Maintained thorough documentation and ensured compliance with payer guidelines and HIPAA regulations.

## Education

---

**Medical Coding and Billing Training** [Oct 2024 – Jan 2025]

Arown Academy, Perinthalmanna | percentage: 89%
