

MOHAMMED AZWIN SHAH

Certified Medical Coder (CPC – AAPC) — UAE RCM Specialist
azwinshah65@gmail.com | +971 55 775 4882 | linkedin | Al Qusais, Dubai, UAE

Professional Summary

Certified **Medical Coder (CPC – AAPC)** with hands-on experience in **ICD-10-CM, CPT, HCPCS**, and strong exposure to **UAE Revenue Cycle Management (RCM)** and billing workflows. Proven expertise in **medical record review, coding accuracy, denial prevention, and insurance compliance** across hospital and UAE healthcare settings. Background in **Cardiac Perfusion Technology** enhances clinical understanding and supports high-quality, compliant coding. Seeking a medical coding or RCM role within UAE healthcare organizations.

Professional Experience

Junior Medical Coder

2 Years

Hayath Hospital, Kerala, India

- Assigned accurate ICD-10-CM and CPT codes based on clinical documentation.
- Ensured coding accuracy and compliance with hospital policies and payer guidelines.
- Reviewed medical records to support clean claim submission and timely reimbursement.
- Collaborated with billing teams to reduce coding-related denials.
- Maintained documentation standards and supported efficient claim processing.

RCM Intern – UAE Healthcare Billing

Internship

Cigma Medical Coding Institute

- Gained end-to-end exposure to Revenue Cycle Management from patient registration to collections.
- Applied UAE billing rules, exclusions, and HAAD adjudication guidelines.
- Executed claim submissions through Eclaim, DHPO, and Riayati.
- Managed claim resubmissions on Shafafiya, Eclaim, and Riayati portals.
- Handled claim denials and implemented corrective actions to improve approval rates.
- Supported billing for dental, antenatal, pediatric, orthodontic, and physiotherapy services.
- Assisted with E&M coding in UAE healthcare settings.
- Verified insurance eligibility for UAE insurers including NextCare, Oman Insurance, NAS, Neuron, ADNIC, and MSH.

Cardiac Perfusion Technologist

Clinical Experience

EMS Memorial Co-operative Hospital & Research Centre, Kerala, India

AJ Hospital and Research Centre, Mangalore, India

- Supported cardiac surgery procedures through perfusion technology practices.
- Maintained clinical documentation and ensured patient safety protocols.
- Developed strong understanding of anatomy, physiology, and clinical workflows.
