WORK EXPERIENCE

CLINICAL PHARMACIST

18/09/2023 – 10/03/2025

Sabine Hospital and Research Centre Pvt Ltd, Kerala, India

- Reviewed and verified prescriptions for accuracy, appropriate dosing, potential drug interactions, and patient-specific factors, ensuring safe medication administration.
- Entering new patient profiles and prescriptions into medication input software system, Ward round participation, Medication error monitoring and ADR monitoring
- Provided in-depth counseling to patients and caregivers on proper medication usage, dosage schedules, side effects, storage, and compliance strategies to improve treatment outcomes.
- Collaborated closely with multidisciplinary healthcare teams during ward rounds to recommend drug therapy adjustments and ensure optimal pharmaceutical care.
- Monitored patient responses to prescribed treatments, identified adverse drug reactions (ADRs), and reported incidents through proper pharmacovigilance channels.
- Maintained accurate and updated patient medication profiles in the hospital information system, supporting continuity of care and minimizing medication errors.
- Ensured regulatory compliance in all aspects of drug procurement, storage, labeling, and dispensing in line with hospital policies and national healthcare standards.

CLINICAL PHARMACIST

02/01/2023 – 07/09/2023

Al Azhar Medical College and Super Specialty Hospital, Kerala, India.

- Interpreted and validated prescriptions to ensure accurate dosages, prevent drug interactions, and promote patient safety.
- Provided individualized medication counseling to patients and families, focusing on proper administration, potential side effects, and adherence strategies.
- Assisted physicians during clinical rounds by offering expert input on pharmacological options, dosing adjustments, and drug availability.
- Monitored patient outcomes and adverse drug reactions, documenting findings and coordinating with pharmacovigilance teams for follow-up.
- Managed the preparation and distribution of medications in accordance with hospital protocols and legal standards.
- Maintained comprehensive patient medication records to support clinical decisions and continuity of care.
