PROFILE

Highly skilled and compassionate Registered Nurse with extensive experience in medical-surgical care, infection control and emergency department nursing. Proficient in performing patient assessments, administering treatments and medications and providing wound care for both acute and chronic conditions. Demonstrated expertise in infection prevention, patient education and handling emergency situations with advanced life support techniques. Strong record of maintaining accurate patient records, coordinating with medical teams and ensuring compliance with healthcare regulations and protocols. Adept at performing essential nursing procedures, including intravenous (IV) administration, catheterization and feeding tube insertion, while prioritizing patient safety and comfort.

EXPERIENCES

REGISTERED NURSE **Nov 2023 - Sep 2025**
(Medical Surgical Department & Infection Control)
Prime Healthcare Group, Prime Medical Center, Reef Mall, Dubai, UAE

- Provided direct patient care, including conducting assessments, administering medications, and performing treatments according to physician orders.
- Assisted in infection control by minimizing patient exposure to infections from staff, visitors, and equipment.
- Maintained a safe, organized, and adequate supply of ward equipment, drugs, and patient care supplies.
- Administered immunizations, educating patients on the importance and schedule of vaccines.
- Accurately administered medications and treatments and monitored patients for adverse reactions.
- Assisted physicians during minor surgeries, diagnostic tests, and medical procedures while providing wound care and managing dressings for surgical and chronic wounds.
- Educated patients and their families on disease management, medication protocols, and post-discharge care, ensuring clear understanding and adherence.
- Responded to emergency situations by utilizing advanced life support techniques and coordinating with medical teams.
- Maintained accurate patient records in electronic health systems, documenting assessments, interventions, and outcomes.
- Ensured compliance with Dubai Health Authority (DHA) regulations, hospital policies, and nursing standards.
- Managed medical supplies and equipment, ensuring proper inventory levels and availability.

STAFF NURSE (Emergency Department) **Sep 2022 - Mar 2023**
Iqraa International Hospital Kozhikode Kerala, India

- Conducted triage assessments of patients arriving in the emergency department, prioritizing care based on severity.
- Administered intravenous (IV) drugs, fluids, and medications as per physician recommendations, ensuring proper dosage and monitoring for adverse reactions.
- Performed urinary catheter insertions and IV cannulations for blood sampling, fluid administration, parenteral nutrition, chemotherapy, and blood product transfusions.
- Provided direct patient care for draining wounds, fistulas, pressure ulcers, and skin breakdowns, ensuring optimal healing and comfort.
