EXPERIENCE

KMC Hospital | Mangalore, India (May 2019 – November 2021)

Highland Hospital | Mangalore, India (January 2022 – January 2024)

PROFESSIONAL RESPONSIBILITIES

- Accomplishes capturing patient demographics and associated documentation efficiently.
- Administers medications and IVs in accordance with policy, monitors patient responses, and maintains accurate medication records to ensure safe and effective treatment.
- Demonstrates strong clinical knowledge in infection control and CLABSI prevention, consistently adhering to protocols and documentation standards.
- Performs rapid patient assessments and applies critical thinking to determine appropriate interventions based on observation and individual needs.
- Actively collaborates with interdisciplinary teams and communicates effectively during rounds to ensure continuity and quality of patient care.
- Responsive to and understanding of the complexities of advanced medical equipment, such as syringe pumps and infusion pumps.
- Supports patient admissions and discharges while maintaining a well-organized and efficient admitting process.
- Enhances patient satisfaction by providing holistic care that considers the patient's body, emotions, and spirit.
- Assisted approximately 12-15 patients with daily living needs each shift and achieved a 100% satisfaction rating on internal patient feedback surveys at my current role.
- Through proactive rounding, reduced responsiveness to patient calls by 30%.
- Applies health promotion strategies to assist patients and their families in building skills that encourage healthy lifestyles, maintenance, and effective self-management.
