Work Experience

Amrita Institute of Medical Science and Research Center, Kerala, India

Registered Nurse (Nurse Associate Trainee) – Surgical ICU — June 2024 – August 2024

Registered Nurse (Practical Trainee) – Surgical ICU — August 2024 – August 2025

- Delivered individualized post-operative care to critically ill patients from complex surgeries.
- Monitored vital signs, neurological status, and fluid balance; intervened promptly during complications.
- Assisted and coordinated with multidisciplinary teams including surgeons, anesthesiologists, and physiotherapists.
- Performed advanced ICU procedures: tracheostomy care, central line maintenance, chest tube management, and endotracheal suctioning.
- Maintained accurate documentation of nursing assessments, interventions, and medication administration.
- Provided emotional support and counseling to patients and families during ICU stays.
- Ensured strict infection control and adherence to aseptic protocols.
- Administered medications, blood products, and IV infusions safely, monitoring for adverse reactions.
- Assisted in bedside interventions including central line insertions and wound debridement.
- Responded promptly to clinical emergencies including code blue situations.
