EXPERIENCE

Staff Nurse – Emergency Department

Trivandrum, Kerala

Neyyar Medicity Hospital

05/2024 - 07/2025

A healthcare institution providing specialized emergency medical services

- Manage acute and trauma cases with rapid triage and emergency interventions following ACLS protocols
- Participate actively in ACLS protocol execution during cardiac arrest and myocardial infarction (MI) management
- Assist physicians in advanced airway management including endotracheal intubation
- Support central line insertion and monitor arterial line & Central Venous Pressure (CVP)
- Assist in diagnostic and therapeutic procedures including lumbar puncture, pleural aspiration, intercostal drainage, and ascitic fluid tapping
- Perform insertion and management of nasogastric tubes and Foley catheters
- Provide ventilator care and manage Non-Invasive Ventilation (BiPAP, CPAP)
- Administer oxygen therapy, emergency medications, thrombolytics, and various injections (IV, SC, IM, ID)
- Collect blood samples and Arterial Blood Gas (ABG) for laboratory analysis
- Conduct specimen collection ensuring proper handling and documentation
- Perform Cardiopulmonary Resuscitation (CPR) and use defibrillator for cardioversion during emergencies
- Monitor and interpret 12-lead ECGs, vital signs, and pulse oximetry readings
- Maintain comprehensive EMR documentation and strictly adhere to infection control protocols
- Collaborate with multidisciplinary teams to provide efficient emergency care and patient safety

Staff Nurse – Orthopedic Department

Attavar, Mangalore, Karnataka

KMC Hospital

02/2023 - 03/2024

A healthcare facility specializing in orthopedic care and surgery

- Provided nursing care for pre-operative, intra-operative, and post-operative orthopedic patients
- Assisted in fracture management, dislocation reduction, and orthopedic procedures
- Managed cast applications, wound care, and surgical dressing changes
- Administered medications, intravenous fluids, and injections as per physician orders
- Monitored patients' vital signs, pain levels, and mobility progress
- Managed drainage tubes and traction setups, supporting patient mobilization
- Collected clinical specimens for laboratory testing
- Educated patients and families on post-surgical care, rehabilitation, and infection prevention
- Documented patient progress and treatment details accurately in electronic medical records (EMR)
- Collaborated with multidisciplinary healthcare teams to optimize patient outcomes

STRENGTHS

Clinical Proficiency

Expertise in trauma management and advanced cardiac life support

Team Collaboration

Compassionate care under pressure with strong teamwork skills

KEY ACHIEVEMENTS

Emergency Nursing Excellence

Successfully managed acute trauma cases with rapid triage and ACLS interventions

SKILLS

Advanced Cardiac Life Support (ACLS) Protocols
Basic Life Support (BLS) & CPR
Emergency Triage & Trauma Management
Myocardial Infarction & Cardiac Arrest Care
Ventilator Care
Oxygen Therapy & Airway Management
Endotracheal Intubation Assistance
Central Line & Arterial Line Monitoring
Thrombolytic Administration
ECG Monitoring & 12-Lead Interpretation
Defibrillator Use & Cardioversion
Fracture Management & Cast Application
Dislocation Reduction Assistance
Bone Marrow Aspiration
Post-Operative Orthopedic Care
Traction Setup & Drain Management
Patient Mobilization & Rehabilitation Support
Specimen & Blood Collection
Foley Catheter & Nasogastric Tube Insertion
Team Collaboration in Multidisciplinary Settings
Patient & Family Education
Time Management & Prioritization
