PROFILE Highly compassionate and clinically skilled Registered Nurse (NICU) with hands-on experience in neonatal intensive care, high-risk newborn management, ventilator support, and emergency neonatal resuscitation. Proven ability to deliver safe, evidence-based nursing care in fast-paced NICU environments while maintaining strict compliance with DHA standards, infection control protocols, and patient safety guidelines. Adept at collaborating with neonatologists, pediatricians, and multidisciplinary teams to ensure optimal neonatal outcomes. DHA Licensed, detail-oriented, and committed to family-centered care excellence within UAE healthcare settings.

PROFESSIONAL EXPERIENCE

Apr 2024 — Aug 2025	Staff Nurse – NICU, Lifeline Hospital	India
---------------------	---------------------------------------	-------

- Provided specialized nursing care to critically ill, premature, and high-risk neonates in a NICU setting
- Assisted in neonatal resuscitation, intubation, and emergency stabilization procedures
- Monitored and documented vital signs, oxygen saturation, ABG values, and neurological status
- Operated and maintained ventilators, incubators, CPAP systems, infusion pumps, and cardiac monitors
- Administered neonatal medications, IV fluids, and enteral feeds in accordance with physician orders
- Implemented strict infection control, aseptic practices, and thermoregulation protocols
- Collaborated closely with neonatologists, pediatricians, respiratory therapists, and nursing teams to ensure quality patient outcomes

CORE SKILLS

NICU & Neonatal Critical Care	IV Therapy & Fluid Management
Neonatal Resuscitation (NRP Support)	NG/OG Tube Feeding & Enteral Nutrition
High-Risk & Premature Newborn Care	Ventilator & CPAP Management
Incubator & Radiant Warmer Handling	Infection Control & Aseptic Techniques
Vital Signs & Oxygen Saturation Monitoring	Emergency Response & Critical Thinking
ABG Interpretation & Monitoring	Clinical Documentation & EMR Accuracy
Neonatal Medication Administration	Family-Centered Neonatal Care

KEY ACHIEVEMENTS

- Delivered comprehensive NICU care for critically ill, premature, and high-risk neonates, ensuring clinical stability and continuous monitoring
 - Actively supported neonatal resuscitation and emergency interventions, contributing to timely stabilization of newborns
 - Demonstrated strong proficiency in managing advanced NICU equipment, including ventilators, CPAP systems, and incubators
 - Recognized for maintaining accurate clinical documentation, infection control compliance, and patient safety standards
-

EQUIPMENT HANDLED

- Neonatal Incubators, Radiant Warmers, Mechanical Ventilators, CPAP Systems, Cardiac Monitors, Pulse Oximeters, ABG Machine, Glucometer, Suction Machine, Laryngoscope, AMBU Bag, Nebulizer, Thermometer, Needle & Syringe Destroyer
