## PERSONAL SUMMARY

I am a dedicated and empathetic registered nurse with two and a half years of specialised experience in a hospital-based setting. As an emergency medicine nurse, I am driven to practice patient-centered care to those with acute and chronic illnesses. During my clinical placement, I worked in a private aged care facility and the Te Whatu Ora forensic psychiatry services; surgical-orthopaedic ward; diabetic clinic; youth mental health services; stroke and renal care unit. I am passionate about helping others and am seeking to cultivate further professional experience within a hospital setting once in Dubai. I am confident in my skills and abilities, and for the next steps in my career, I am working toward advancing to a higher nursing position to wholly enhance my nursing practices.
