SUMMARY

Dedicated DHA Licensed Clinical Pharmacist with over 2.2 years of experience in hospital and healthcare settings, specializing in Cardiology, Nephrology, Neurology, and General Medicine. Skilled in patient monitoring, medication therapy management (MTM), and medication error reduction. Proven ability to integrate smart technology, enhance pharmaceutical compliance, and contribute to antimicrobial stewardship programs. Experienced in formulary management, regulatory compliance, and committee participation. Seeking to leverage expertise in a patient-centric and technologically advanced healthcare institution.

WORK EXPERIENCE

November 2022 – December 2024)

Clinical Pharmacist

Aster MIMS Multi-Speciality Hospital, Kerala, India

- Reviewed and optimized 50+ patient drug regimens per day, ensuring medication appropriateness and communicating 100% of suggested changes to physicians.
- Verified 100% of physician orders for accuracy, safety, and efficacy before dispensing medications.
- Conducted daily patient education and counseling on drug therapy, disease prevention, and proper medication use, improving adherence and patient outcomes.
- Identified, prevented, and resolved 10+ drug-related problems per shift, ensuring safe and effective medication therapy.
- Processed and maintained electronic records for 200+ medications dispensed daily to hospitalized patients.
- Accurately filled, checked, and dispensed 100+ outpatient and inpatient prescriptions per day.
- Prepared, packaged, dispensed, and delivered unit-dose medications per hospital protocols, reducing medication errors.
- Monitored and maintained 100% stock control of floor-stock medications in wards and nursing units, minimizing stock outs.
- Compounded and prepared custom drug formulations per Pharmacy & Therapeutics Committee guidelines for non-commercially available medications.
- Prepared 100+ sterile products weekly, including chemotherapy injections, IV admixtures, and Total Parenteral Nutrition (TPN) in compliance with sterile compounding protocols.
- Performed monthly inspections of all hospital drug storage areas, ensuring compliance with safety standards and removing outdated medications.
- Executed other clinical and operational pharmacy tasks as assigned by the line manager to support hospital-wide pharmaceutical care.

May 2022 – August 2023

Clinical Pharmacist Trainee

Daya General Hospital s Speciality Surgical Centre

- Assisted in medication error reporting, contributing to a 15% reduction in prescribing and dispensing errors.
- Conducted medication reconciliation for 200+ patients, identifying potential drug interactions and contraindications.
- Assisted in compounding, dispensing, and inventory management, ensuring regulatory compliance.
- Participated in therapeutic drug monitoring and ward rounds, ensuring optimal pharmacotherapy outcomes.
- Provided medication counseling to 500+ patients, improving adherence and awareness of drug safety.
