PROFILE

REGISTERED NURSE – DHA LICENSED | INTENSIVE CARE UNIT (ICU)

Registered Nurse with focused clinical experience in Medical ICU and Neuro ICU environments, demonstrating strong capability in critical care nursing, hemodynamic monitoring, continuous cardiac monitoring, ventilator and BiPAP management, emergency and code blue response, advanced infection prevention and control practices, medication administration, IV therapy, infusion pump management, and clinical documentation. Seeking a Medical ICU Registered Nurse position where evidence-based nursing practice, adherence to hospital policies and clinical protocols, patient safety standards, critical thinking, interdisciplinary collaboration, and proficient use of ICU medical equipment can support acute patient stabilization, recovery outcomes, quality of care, and safe multidisciplinary care delivery.

PROFESSIONAL EXPERIENCE

Staff Nurse – OPD, IPD, ICU & Casualty | Dr. K.P.K Nair Memorial Co-operative Hospital, Kanhangad | Jul 2025 – Jan 2026

- Delivered nursing care across OPD, IPD, ICU, and emergency services ensuring continuity of care.
- Performed patient assessments, vital sign monitoring, and clinical documentation.
- Assisted physicians during emergency interventions, procedures, and critical care situations.
- Administered medications, IV fluids, and injections while maintaining medication records.
- Supported oxygen therapy, ECG monitoring, and post-procedure patient observation.
- Implemented infection control measures and patient safety standards.
- Educated patients and caregivers on treatment plans and discharge instructions.

Registered Nurse – Medical ICU | Aishal Medicity, Kanhangad, Kerala | Mar 2025 – Jul 2025

- Delivered comprehensive nursing care to critically ill patients in the Medical ICU setting.
- Conducted continuous monitoring of vital signs, ECG, oxygen saturation, and hemodynamic status.
- Administered IV medications, fluids, and managed syringe and infusion pumps with accuracy.
- Operated ventilators, BiPAP machines, and other life-support systems in line with ICU protocols.
- Assisted during emergency procedures including CPR, intubation, and resuscitation.
- Maintained accurate nursing documentation and patient care records.
- Coordinated with physicians and multidisciplinary teams to support treatment plans.

Nursing Officer – Neuro ICU | Baby Memorial Hospital, Kozhikode | Jun 2024 – Dec 2024

- Provided specialized nursing care for neurological and post-neurosurgical ICU patients.
- Monitored neurological parameters including Glasgow Coma Scale, pupil response, and vitals.
- Supported management of stroke, head injury, and neuro-critical cases.
- Administered IV medications and maintained infusion therapy safely.
- Ensured strict infection control and continuous patient observation.
- Coordinated clinical care with neurologists, neurosurgeons, and ICU teams.

Staff Nurse – Emergency Room & Intensive Care | Ceeyam Hospital, Vadakara | May 2021 – Nov 2021

- Provided nursing care in Emergency and Intensive Care settings.
- Performed rapid patient assessment, triage support, and vital monitoring.
- Assisted in emergency stabilization, medication administration, and IV therapy.
- Supported critical care monitoring and maintained accurate clinical documentation.
- Ensured adherence to infection control protocols and patient safety standards.
