Mr Mallikarjun
(Nursing Superintendent)
Nano Hospital Banglore, India
+919743604914

I am an experienced nurse with a passion for providing high-quality patient care. With extensive clinical experience in various settings, I excel at building strong patient relationships, effective communication and continuous education. My compassionate nature and commitment to nursing make me confident in my ability to improve patients' lives.
Last one year worked as supervisor in Icu, duties include Quality check, allocation of duties to juniors, Duty roster making, stock inventory and assisting in preparation of medical records for audit

EXPERIENCE

STAFF Nurse

Nano Hospital Banglore, India

October 2021– November 2024

1. ICU Duties:

- Monitor and assess critically ill patients, including vital signs, hemodynamic status, and response to treatment.
- Administer medications, IV therapies, and other interventions as prescribed.
- Operate and manage life support equipment such as ventilators, infusion pumps, and cardiac monitors.
- Collaborate with multidisciplinary teams to develop and implement individualized care plans.
- Provide post-operative care and monitor for complications.
- Educate patients and families on critical care procedures and recovery processes.

2. Casualty/Emergency Room Duties

- Triage patients based on the severity of their condition and prioritize care accordingly.
- Stabilize patients in emergency situations, including trauma, cardiac arrest, and acute medical conditions.
- Perform emergency procedures such as CPR, wound care, and basic life support.
- Coordinate with physicians and specialists for timely interventions.
- Maintain accurate and timely documentation of patient conditions and treatments.
- Ensure the readiness of emergency equipment and supplies.

*3. Ward Duties:

- Provide comprehensive nursing care to patients in general wards, including medication administration, wound care, and patient monitoring.
- Assist in patient admissions, transfers, and discharges.
- Monitor and report changes in patient conditions to the healthcare team.
- Educate patients and families on disease management, medications, and post-discharge care.
- Maintain a clean, safe, and organized ward environment.
- Follow infection control protocols and ensure compliance with hospital policies.
