PROFILE SUMMARY

Registered Nurse with over 5 years of clinical experience in Medical Intensive Care Units and high-volume vaccination centers. Skilled in delivering critical care to acutely ill patients, administering vaccines, monitoring for adverse reactions, and maintaining strict infection control standards. Demonstrated ability to work efficiently in fast-paced environments while providing safe, compassionate, and patient-centered care.

PROFESSIONAL EXPERIENCE

REGISTERED NURSE

Mina Vaccination Center – Abu Dhabi, UAE

01/Mar/2021 – 30/Oct/2022

- Administered COVID-19 and routine vaccinations in accordance with UAE Ministry of Health (MOH) and DOH guidelines.
- Conducted pre-vaccination assessments, including medical history review, allergy screening, and contraindication checks.
- Educated patients on vaccine benefits, possible side effects, and post-vaccination care.
- Monitored patients for adverse reactions and provided immediate emergency care when required.
- Maintained accurate vaccination records and documentation using electronic health systems.
- Ensured strict adherence to infection control, safety, and cold-chain management protocols.
- Collaborated with multidisciplinary healthcare teams to manage high-volume patient flow efficiently.
- Assisted in crowd control, triage, and workflow optimization during mass vaccination campaigns.
- Participated in quality improvement initiatives and compliance audits to maintain healthcare standards.

REGISTERED NURSE (Medical Intensive Care Unit)

Mitra Multi Specialty Hospital – Karnataka, India

01/Mar/2017 – 06/Jun/2020

- Provided comprehensive nursing care to critically ill patients in the Medical Intensive Care Unit (MICU).
- Monitored and managed patients with life-threatening conditions, including sepsis, respiratory failure, cardiac disorders, and multi-organ dysfunction.
- Continuously assessed vital signs, cardiac rhythms, neurological status, and hemodynamic parameters.
- Administered medications, IV infusions, blood products, and vasoactive drugs as per physician orders.
- Assisted with advanced procedures such as mechanical ventilation, intubation, central line care, arterial line monitoring, and suctioning.
- Responded promptly to medical emergencies, including code blue situations and rapid patient deterioration.
- Maintained accurate and timely documentation of patient assessments, interventions, and outcomes.
- Ensured strict adherence to infection control protocols, patient safety standards, and ICU policies.
- Collaborated with intensivists, physicians, and multidisciplinary teams to develop and implement individualized care plans.
- Provided emotional support and education to patients' families regarding treatment plans and prognosis.
