DUTIES & RESPONSIBILITIES

- Perform comprehensive nursing assessments, develop care plans, implement interventions, and evaluate patient outcomes in collaboration with senior nursing staff.
- Uphold patient privacy, dignity, and safety in accordance with Trust and departmental policies, promptly reporting any concerns to supervisory personnel.
- Monitor and maintain the highest standard of patient care and treatment, adhering strictly to Trust policies, clinical guidelines, and best practices, while maintaining accurate and timely documentation.
- Attend all mandatory training sessions and ensure compliance with updates as directed by Ward Matron.
- Administer prescribed medications and monitor for potential side effects as per Electronic Patient Record (EPR) protocols and Trust policies, operating within defined limits of competence and under the guidance of a Registered Nurse.
- Provide person-centered care, including assistance with personal hygiene and activities of daily living, promptly reporting any changes in patient status to the Registered Nurse.
- Document all care provided accurately and maintain confidentiality under the supervision of a Registered Nurse.
- Adhere to Trust policies and guidelines, including those related to infection control and uniform/dress code standards.
- Complete a 06-week OSCE training program with the Northern Care Alliance, gaining proficiency in patient care management and evaluation in the accident and emergency department.
- Ensure timely and accurate completion of all administrative and documentation tasks related to patient care and medication management across various hospital wards.
- Direct patient assessments and supervise the safe delivery of care in Neonatal ICU, Medical and Surgical Wards, and Orthopaedic Ward.
- Organize and supervise health campaigns and emergency response activities, including air evacuation procedures during critical incidents such as the Pathankot airbase attack in 2019.
- Provide leadership to healthcare assistants and junior staff, ensuring effective monitoring of patients with suspected cardiac issues through telemetric monitoring.
- Supervise and mentor junior nurses in specialized units such as the blood bank, assisting in critical interventions and patient care tasks as needed.
