Professional Summary

Hospital Pharmacist with 3+ years of hospital pharmacy experience in a multi-specialty tertiary-care care setting, delivering safe dispensing and evidence-based pharmacotherapy. Skilled in medication reconciliation, Therapeutic Drug Monitoring (TDM), antimicrobial stewardship, formulary management, drug information support, and patient counseling to improve adherence and reduce medication-related problems. DHA exam passed; DHA eligibility letter in progress (PSV / DataFlow).

Personal Details

- Date of Birth : 11/01/1999
- Nationality : Indian
- Passport : P9883354
- Gender : Male

Work Experience

- **Baby Memorial Hospital Kannur** 01 Aug 2022 - Present
Pharmacist
Multi-specialty hospital with 272 beds (250 operational), including 80 ICU beds, 24 ER beds, and 20 day-care beds.
 - Managed across inpatient (IP) and outpatient (OP) pharmacy services, ensuring accurate dispensing and timely medication supply as per hospital policy.
 - Dispensed ~150 prescriptions per day while performing prescription screening for dose, frequency, interactions, and contraindications to support safe medication use.
 - Reduced dispensing errors by strengthening prescription review, LASA precautions, and double-check processes for high-alert medications.
 - Ensured compliance with infection control and medication safety standards; supported staff education on safe pharmacotherapy practices.
 - Minimized medicine expiry wastage by 15% through strict FIFO / FEFO implementation, optimized stock rotation, and enhanced expiry tracking via the HIS - NuMr.
 - Supported inventory control and record accuracy (issue / receipt, returns, expiry logs) to assist cost control and audit readiness
