PROFILE

Highly motivated and detail-oriented Pharm. D graduate with hands-on experience in pharmacy operations within multispecialty hospital pharmacy settings. Possesses strong knowledge of prescription processing, medication dispensing, labeling, storage, and inventory management in compliance with pharmacy standards and safety guidelines. Experienced in handling patient and customer interactions at the pharmacy counter, providing clear medication instructions, dosage guidance, and basic OTC counseling while maintaining accuracy and confidentiality. Demonstrates a solid understanding of day-to-day pharmacy workflow including prescription verification, stock control, expiry monitoring, billing support, and coordination with healthcare staff to ensure uninterrupted medication supply. Known for a disciplined work ethic, attention to detail, and ability to perform efficiently in fast-paced environments.

EXPERIENCE

Devika multi Speciality hospital - Pharmacist

2024 – 2025

- Worked in the hospital pharmacy supporting daily dispensing and medication distribution activities.
- Received, reviewed, and processed prescriptions to ensure completeness, clarity, and accuracy.
- Dispensed medications according to prescriptions while following standard pharmacy protocols.
- Prepared medication labels with correct dosage instructions, warnings, and storage advice.
- Counseled patients at the pharmacy counter regarding medication usage, timing, and precautions.
- Managed pharmacy stock including receiving supplies, checking expiry dates, and maintaining proper storage conditions.
- Assisted in maintaining pharmacy inventory records and coordinating timely replenishment of medicines.
- Ensured cleanliness, organization, and compliance within the pharmacy area.
- Coordinated with doctors and nursing staff regarding medication availability and substitutions.

Rohini Multi Speciality Hospital - pharmacy assistant

2023- 2024

- Assisted licensed pharmacists in day-to-day pharmacy operations.
- Helped in dispensing medications under supervision and ensuring correct medication selection.
- Organized medicines based on therapeutic categories and storage requirements.
- Checked prescriptions for legibility and completeness before processing.
- Supported billing processes and maintained pharmacy documentation.
- Handled patient queries related to medication availability and basic usage instructions.
- Participated in inventory checks, expiry monitoring, and stock arrangement.
- Maintained patient confidentiality and followed ethical pharmacy practices.
