Work Experience

MEITRA HOSPITAL, CALICUT

September 2024 – December 2025

Registered Nurse

Kerala, India

Department: Intensive Coronary Care Unit (ICCU)

- Deliver comprehensive nursing care to critically ill cardiac patients, ensuring continuous observation, life-support assistance, and rapid response to emergencies.
- Track and interpret vital signs, cardiac rhythms, and ECG changes, promptly communicating any irregularities to the healthcare team.
- Administer prescribed medications, IV infusions, and cardiac-related treatments safely and accurately.
- Support physicians during urgent cardiac interventions such as defibrillation, airway intubation, and central venous line placement.
- Manage and operate ICU devices including ventilators, infusion pumps, and cardiac monitors, while performing airway care and oxygen support.
- Provide thorough pre- and post-procedural care for patients undergoing angiography, angioplasty, and pacemaker procedures, ensuring complete documentation.
- Offer compassionate guidance, emotional reassurance, and health education to patients and families while actively participating in Code Blue resuscitation events.

MALABAR MEDICAL COLLEGE, CALICUT

January 2023 – March 2024

Registered Nurse

Kerala, India

Department: Intensive Coronary Care Unit (ICCU)

- Performed continuous patient evaluations and updated individualized care plans based on clinical progress and changing cardiac conditions.
- Guided patients and their families on heart health, lifestyle adjustments, medication routines, and discharge care instructions.

- Provided direction and support to junior nurses and nursing assistants, ensuring adherence to ICU standards and procedures.
- Coordinated diagnostic services such as laboratory tests, imaging, and specialist reviews to support accurate clinical decisions.
- Followed strict biomedical waste management practices, ensuring proper segregation, labelling, and disposal as per hospital policies.
- Took part in quality audits, infection control checks, and other ICU compliance activities to maintain high standards of care.
- Delivered post-procedure care for patients recovering from cardiac catheterization, pacemaker procedures, and other cardiac interventions while ensuring complete and precise documentation.
