#### PROFESSIONAL EXPERIENCE

##### REGISTERED NURSE

**Right Health (Karama Medical Center-DIP 1), Dubai, UAE | 28th September 2021 - Present**

- Provide direct patient care in a busy outpatient setting, including vital signs monitoring, medication administration, and patient education.
- Assist physicians with diagnostic procedures and minor surgical interventions.
- Maintain accurate patient records in compliance with DHA regulations and clinical protocols.
- Deliver health education and support to patients and families, improving treatment adherence and outcomes.
- Ensure infection control standards and contribute to overall clinical quality improvements.

##### STAFF NURSE

**Medical & Surgical Ward - KIMS Hospital, Idukki, Kerala, India 15 Oct 2018 – 18 Oct 2020**

- Provided comprehensive nursing care to patients in both medical and surgical units, including pre- and post-operative care.
- Monitored patient conditions, administered medications, and collaborated with multidisciplinary teams to ensure optimal outcomes.
- Managed wound care, catheterization, IV therapy, and other bedside procedures.
- Educated patients and families on treatment plans, post-discharge care, and health maintenance.
- Maintained accurate documentation and adhered to hospital and accreditation standards.

##### STAFF NURSE

**Surgical Ward - SRM Medical College Hospital & Research Center, Chennai, India | Nov 6, 2014 – May 22, 2017**

- Delivered skilled nursing care to post-operative patients, ensuring proper recovery and infection control.
- Assisted in surgical preparations, post-op monitoring, and timely intervention in case of complications.

- Collaborated with surgeons and anesthetists during patient handovers and rounds.
- Administered medications, monitored vital signs, and maintained patient charts and reports.
- Educated patients and their families about surgical procedures, recovery processes, and home care plans.

## **STAFF NURSE**

**Emergency Medicine - Manipal Hospital, Bangalore |**

**Oct 3, 2012 – Dec 7, 2013**

- Provided critical nursing care in a high-pressure emergency department, handling acute and life-threatening cases.
- Performed triage, patient assessments, vital sign monitoring, and medication administration.
- Assisted in emergency procedures including intubation, wound care, and resuscitation.
- Maintained accurate documentation and ensured adherence to hospital protocols.
- Supported team coordination and trained junior staff in emergency care best practices.
