SUMMARY

Detail-oriented and compassionate Registered Nurse with 2+ years of experience in Emergency and Trauma care setting. Skilled in administering medications, performing medical procedures, monitoring patient progress and ensuring adherence to safety and infection control protocols. Proficient in collaborating with multidisciplinary teams to develop and implement care plans, providing emotional support to patients and families and maintaining accurate medical records. Known for excellent communication skills, attention to detail and a commitment to delivering empathetic care. Currently seeking a nursing position to apply expertise in contributing to the well-being of patients and the success of a healthcare organization.

EXPERIENCE

STAFF NURSE | ST THOMAS HOSPITAL, KERALA, INDIA

Sep 2023 – Sep 2025

Department : Emergency and Trauma Care Unit

- Provided immediate and effective patient care in the Emergency and Trauma Care Unit, handling critical and emergency cases efficiently.
- Administered medications and treatments according to the doctor's prescriptions and ensured proper monitoring of patient vitals.
- Contributed to a 10% increase in patient satisfaction scores by providing compassionate care and enhancing communication between patients and medical staff.
- Assisted in the preparation and management of trauma-related medical procedures, ensuring all equipment was sterile and ready.
- Reduced patient wait time in the Emergency Department by 15% through effective triage and prioritization techniques.
- Collaborated with multidisciplinary teams to deliver comprehensive care plans, focusing on prompt response and effective outcomes.
- Offered emotional support to patients and families, explaining medical procedures and addressing concerns during stressful situations.
- Maintained accurate and up-to-date patient records, ensuring 100% compliance with hospital protocols and regulatory standards.
- Trained and mentored new nursing staff members, improving team efficiency and ensuring 100% adherence to hospital protocols and best practices in patient care.
- Implemented infection prevention measures, contributing to a 15% reduction in hospital-acquired infections and promoting a safer environment for both patients and staff.
