

Dr. Ahmed Mohamed

General Practitioner | 📍 Ajman, United Arab Emirates
📞 +971 50 242 2107 | ✉️ Dr.AhmedNasreldin@outlook.com

Professional Summary

DHA-licensed Senior General Practitioner with 8+ years of progressive clinical experience across emergency medicine, trauma and orthopedic care, surgical support, primary care, and rehabilitation follow-up. Proven ability to manage high-acuity cases, perform rapid triage, develop evidence-based treatment plans, and optimize patient outcomes in fast-paced, multidisciplinary environments. Demonstrated expertise in orthopedic trauma management, post-operative mobilization, chronic disease control, and preventive care, with strong clinical judgment, patient-centered communication, and strict adherence to international medical guidelines and hospital protocols.

Core Competencies

- Emergency & Acute Care Excellence
- Primary Care & Family Medicine Practice
- Trauma & Orthopedic Case Management
- Evidence-Based Clinical Decision Making
- Patient Safety & Quality of Care
- Preventive Medicine & Health Promotion
- Multidisciplinary Care Coordination
- Clinical Documentation & Medical Compliance
- High-Volume Patient Flow Management

Professional Experience

- **Noor Al Mamzar Medical Center | Dubai, UAE** (March 2025 - Present)
General Practitioner
 - Perform comprehensive patient evaluations, including detailed history taking and physical examinations, ensuring accurate diagnoses and effective treatment planning.
 - Manage acute and chronic medical conditions through evidence-based, individualized care plans, improving clinical outcomes and patient satisfaction.
 - Provide post-operative follow-up, wound assessment, and sterile dressing care in compliance with infection-control protocols.
 - Promote preventive healthcare by identifying risk factors and delivering targeted patient education.
 - Maintain accurate and timely electronic medical documentation in line with regulatory and clinical governance standards.
- **Future Hospital | Khartoum, Sudan** (2019 - 2023)
General Practitioner – Emergency Department
 - Managed 500+ emergency and critical cases annually in a high-volume ER, including respiratory, cardiac, diabetic, and trauma-related conditions.
 - Executed rapid triage, stabilization, and initial management for critically ill patients across all age groups.
 - Conducted 2,000+ physical examinations per year, facilitating early diagnosis of complex and life-threatening conditions.
 - Treated 200+ orthopedic and trauma cases annually in collaboration with specialists, adhering to international clinical protocols.
 - Coordinated efficiently with multidisciplinary teams under high-pressure conditions to optimize patient flow and outcomes.
- **Madani Teaching Hospital – Al-Jazeera Emergency & Trauma Center | Sudan** (Jul 2023 - Oct 2023)
Clinical Rotation (Orthopedic Surgery & Physical Medicine and Rehabilitation, Ortho-Focused)
 - Worked within the ER trauma team, managing orthopedic trauma cases, including initial assessment, stabilization, and referral.
 - Conducted thorough physical examinations, functional assessments, and prognosis evaluations for orthopedic injuries.
 - Managed post-operative mobilization of orthopedic patients, ensuring safe recovery and early functional improvement.
 - Prescribed individualized home exercise programs and followed up patient progress to enhance rehabilitation outcomes.
 - Collaborated closely with emergency physicians, orthopedic surgeons, and rehabilitation staff to deliver coordinated trauma care.
- **Bashair Hospital | Sudan** (Feb 2023 - May 2023)
Clinical Rotations (Neuromedicine)
 - Performed comprehensive neurological examinations and contributed to diagnosis and monitoring of adult neurological disorders.
 - Assisted in treatment planning, patient follow-up, and clinical documentation in a high-volume inpatient setting.
 - Participated in multidisciplinary case discussions to optimize neurological patient outcomes.
- **Jaafar Ibn Auf Children's Hospital | Sudan** (Nov 2022 - Feb 2023)
Clinical Rotations (Pediatric Neurology)
 - Conducted detailed pediatric neurological assessments, including history taking, physical and developmental examinations.
 - Assisted in the evaluation and follow-up of pediatric neurological conditions under specialist supervision.
 - Supported multidisciplinary care planning to ensure safe and effective patient management.
- **Al-Tawoni One-Day Surgery Medical Center | Khartoum Bahri, Sudan** (2018 - 2019)
General Practitioner – Surgical Department
 - Conducted thorough pre-operative evaluations, contributing to a 15% reduction in post-surgical complications.
 - Managed post-operative care for 200+ patients, including wound care, pain management, and recovery monitoring.
 - Improved patient compliance and reduced post-operative readmissions by 10% through structured follow-up and education.
 - Ensured strict adherence to hospital policies, patient safety standards, and accurate clinical documentation.

- **West Darfur National Health Insurance Fund | Sudan**

(2016 - 2017)

General Practitioner – Clinic

- Delivered medical care to 150–200 patients daily, managing infectious diseases, malnutrition, and chronic conditions.
- Performed targeted diagnostic workups, achieving a 90% case resolution rate.
- Collaborated with multidisciplinary teams to improve care coordination and reduce referral turnaround times by 25%.

Education & Qualifications

- **Bachelor of Medicine, Bachelor of Surgery (MBBS)**

Al-Neelain University – Sudan

Medical Licensing & Registration

- Dubai Health Authority (DHA) – Active License
- Ministry of Health (MOH – UAE) – Evaluation Letter
- Sudanese Medical Council – Full Registration

Achievements

- Managed high-acuity emergency and trauma cases with consistent adherence to international protocols.
- Reduced post-operative complications and readmissions through structured assessment and follow-up.
- Demonstrated strong expertise in orthopedic trauma care and rehabilitation-oriented practice.
- Improved clinic efficiency, patient flow, and satisfaction across multiple healthcare settings.
