## PROFESSIONAL SUMMARY

---

DHA-eligible and results-oriented Anesthesia Technician with foundational experience in a fast-paced, 650-bed NABH-accredited Medical-Surgical unit. Adept in modern Anesthesia practices including patient assessment, evidence-based care planning, medication administration, and comprehensive clinical documentation within an Electronic Health Record (EHR) environment. A compassionate patient advocate dedicated to upholding the highest standards of patient safety and quality improvement. Seeking to leverage clinical skills and a commitment to compassionate care to secure a challenging Anesthesia technician position within a JCI/DHA-accredited hospital in the UAE.

## Experience

---

- Baby Memorial Hospital, India** 11/2022 - 09/2025  
Anesthesia Technician
  - Supported anesthesiologists during surgical procedures, encompassing a diverse caseload of General and Regional Anesthesia, ensuring patient safety and optimal surgical outcomes.
  - Monitored patients before, during, and after anesthesia administration.
  - Managed rapid turnover of Operating Room (OT) rooms by preparing, calibrating, and performing maintenance for Anesthesia machine (GE CareStation 650) and ventilator/airway devices to support diverse surgical specialties.
  - Experienced in managing daily workloads within specialized units, prioritizing caseloads and adapting to dynamic clinical demands.
  - Skilled in maintaining service quality and implementing continuous improvement measures, with experience in method evaluation and development per standard protocols.
  - Served as Team Lead-Anesthesia Technician, responsible for team scheduling (duty roasters) and coordinating procurement for high-value items, including anesthesia equipment, medicines, and consumables.
  - Handling procurement and maintenance of ot supplies and devices.
  - Monitoring and reporting on depreciation and upkeep of equipment.
