CAREER SUMMARY

DHA/MOH-eligible Pharmacist with strong academic and clinical pharmacy experience in UAE healthcare settings. Experienced in dispensing, prescription review, insurance approvals, prior authorizations, and patient counselling. Proficient in maintaining accurate medication records, ensuring regulatory compliance, and managing pharmacy inventory efficiently. Looking to join a well-reputed organization to deliver high-quality pharmaceutical care and optimize patient outcomes.

PROFESSIONAL EXPERIENCE

PHARMACIST (FEB 2024 – PRESENT)

RIGHT HEALTH GROUP, Ajman UAE

- Manage daily patient medication approvals using Riyati and eClaim systems for 70+ patients/day, with comprehensive knowledge of formulary guidelines across various insurance providers.
- Educate patients on potential drug interactions and provide personalized medication administration guidance to ensure safe and effective use.
- Manage pharmacy inventory and supervise merchandising to maintain optimal stock levels and effective product presentation.
- Review prescriptions for accuracy, appropriateness, and potential drug interactions to ensure safe dispensing practices.
- Collaborate with physicians, nurses, and other healthcare professionals to optimize patient treatment plans.
- Monitor patient adherence and provide counselling to improve medication compliance and therapeutic outcomes.
- Monitor near-expiry inventory and implement stock liquidation strategies to minimize wastage and financial loss.
- Manage daily operational activities and ensure the pharmacy remains fully MOH compliant with updated records and documentation.

RETAIL PHARMACIST (JAN 2020 – AUG 2023)

KHETRAN MEDICINE COMPANY-PAKISTAN

- Dispensed prescription and over-the-counter medications accurately, ensuring safe and effective use for patients.
- Counselling patients on proper medication use, potential side effects, and drug interactions to promote safe and effective therapy.
- Managed pharmacy inventory, performed stock audits, and ensured timely reordering to maintain optimal stock levels.
- Handled controlled substances and ensured proper storage, labelling, and dispensing in accordance with Punjab Pharmacy Council regulations.
