

MUHAMMAD USMAN JATOI

(General Practitioner)

Discovery Gardens, Dubai, UAE | +971 521578595 | musmanjatoi@gmail.com

PROFESSIONAL SUMMARY

DHA-licensed General Practitioner with **6 years** of post-internship clinical experience, including extensive Emergency Medicine and General Medicine practice in consultant-led hospital and clinic settings in Pakistan and the UAE. BLS and ACLS certified, with proven ability in rapid triage, acute stabilization, and evidence-based management of diverse medical and trauma cases. **Skilled** in airway management, ABG sampling, venipuncture, NG tube and catheter insertion, suturing, I&D, fracture immobilization, and multidisciplinary teamwork, **ready to relocate and join immediately.**

EDUCATION

- **MRCEM Intermediate** | Royal College of Emergency Medicine, UK
- **MRCEM Primary** | Royal College of Emergency Medicine, UK
- **MBBS** | Services Institute of Medical Sciences, Lahore, Pakistan

PROFESSIONAL EXPERIENCE

General Practitioner | Green City Medical Center, Dubai, UAE (April 2022 – Present)

- Manage a high volume of acute emergencies and routine medical conditions in a fast-paced clinical setting.
- Provided outpatient services with responsibilities of thorough history taking, appropriate examination, advising necessary investigation, and prescribing appropriate treatment.
- Perform emergency procedures including wound suturing, incision & drainage, abscess management, and back-slab immobilization.
- Deliver rapid assessment and stabilization for cardiovascular, respiratory, neurological cases.
- Ensure accurate documentation and safe clinical handover to hospital teams for continuity of care.
- Provide outpatient follow-up and chronic disease management as required.

Medical Officer | THQ Level Hospital and Trauma Center, Pakistan (September 2020 – January 2022)

Medical Officer | Tehsil Head Quarter Hospital, Khar, Pakistan (October 2019 – August 2020)

Medical Officer | Pakeeza Polyclinic & Diagnostic Center, Pakistan (May 2019 – October 2019)

- Provided frontline medical, surgical, obstetric, gynaecological, and paediatric emergency care in a busy Emergency Department.
- Performed acute care procedures including airway management (Guedel Airway, Bag mask Ventilation), ABG sampling, NG tube insertion, Foley catheterization, and wound repair.

- Member of cardiac arrest and trauma response teams — participated in cardiopulmonary resuscitation, trauma resuscitation, and rapid sequence protocols.
- Managed high-risk infectious emergencies (e.g. dengue shock, malaria) with rapid stabilization and isolation measures.
- Worked in close collaboration with consultants, nurses, and allied health staff to deliver time-critical interventions.

House Officer | Services Hospital, Lahore, Pakistan

(May 2018 – May 2019)

- Actively participated in patient care under the supervision of consultants, with a strong focus on emergency management and acute care decision-making.
- **General Medicine:** Managed acute and chronic diseases with structured follow-ups.
- **General Surgery:** Assisted in appendectomies, hernia repairs, laparotomies, wound debridement; managed pre- and post-operative care and dressings.
- **Neurology:** Participated in stroke unit rounds, TIA management, and diagnostic planning.
- **Obstetrics & Gynaecology:** Assisted in surgical deliveries, SVDs, Cesarean sections, and minor procedures.
- Initiated infection control improvements, including sharp disposal safety protocols.
