Introduction

Experienced medical professional with 22 years of expertise in Emergency Medicine, Medicine & Allied, Surgery & Allied, and General Practice. Adept at working under pressure, quick to learn, and adaptable to changing environments. Passionate about delivering high-quality patient care and continuously enhancing professional skills.

Objective

With a deep fascination for the human body and its complex functions, I pursued medicine as a profession. I am dedicated to continuous learning and career progression, excelling in fast-paced and high-pressure medical environments. My goal is to contribute effectively to patient care while advancing my expertise.
