Critical Thinking	██████████
Teamwork	██████████
Adaptability	██████████
Computer Proficiency	██████████
Phlebotomy	██████████
Generalist	██████████

LICENSES AND CERTIFICATIONS

Professional Regulation Commission (January 2022)

REGISTERED MEDICAL
TECHNOLOGIST

Dubai Health Authority

LICENSED MEDICAL
LABORATORY
TECHNOLOGIST

EDUCATION HISTORY

2012 - 2015

**Bachelor of Science in
Medical Technology**

Centro Escolar University
9 Mendiola St, San Miguel,
Manila, 1008 Metro Manila

2015 - 2021

**Bachelor of Science in
Medical Laboratory Science**

Our Lady of Fatima University
Km. 23 Sumulong Hwy, Antipolo,
1870 Rizal

WORK EXPERIENCE

- Medical Technologist Intern (August 2020- January 2021)**
Fatima University Medical Center
 - Acquiring knowledge of laboratory procedures, techniques, and equipment. This includes understanding the principles behind various tests and assays.
- Laboratory Receptionist (June 2021 - January 2022)**
Assumption Specialty Hospital and Medical Center
 - Schedule appointments for laboratory tests and procedures. Ensure accurate recording of patient information, contact details, and test requirements.
 - Collect and verify patient information, insurance details, and other necessary paperwork. Input data accurately into the laboratory information system (LIS).
 - Respond to phone calls, emails, and in-person inquiries regarding laboratory services, test procedures, and general information. Provide clear and accurate information or direct inquiries to the appropriate personnel.
 - Receive and log in patient specimens brought to the laboratory. Ensure proper labeling and documentation, and coordinate with laboratory staff for specimen processing.
 - Keep accurate records of patient information, test requests, and results. Ensure confidentiality and compliance with privacy regulations.
 - Work closely with laboratory technicians, technologists, and other staff to facilitate smooth operations and effective communication.
- Medical Laboratory Scientist (January 2022 - January 2025)**
Assumption Specialty Hospital and Medical Center
 - Collect patient specimens, such as blood, urine, or tissue samples, using appropriate techniques and ensuring proper patient identification.

SEMINARS AND TRAININGS

Biosafety, Biosecurity and Biorisk Management Training (24 Hours)

29th day of SEPTEMBER
2023

at the Research Institute
for Tropical Medicine

60TH PAMET National Annual Convention (December 2-4, 2024)

Inspiring the minds,
Empowering success,
Embracing a transparent
future

Philippine Tuberculosis Society, Inc. and National Tuberculosis Reference Laboratory Department of Health (November 18-22, 2024)

Certificate of training in
Basic Training on Direct
Sputum Smear
Microscopy

- Perform a variety of laboratory tests, including but not limited to hematology, microbiology, immunology, clinical chemistry, and molecular diagnostics. Utilize various laboratory instruments and equipment.
- Operate and maintain laboratory instruments, ensuring they are calibrated and functioning properly. Troubleshoot instrument issues and perform basic maintenance.
- Work collaboratively with other laboratory staff, including technicians and assistants, to ensure smooth workflow and effective delivery of laboratory services.
- Exercise critical thinking skills to troubleshoot issues, identify anomalies in test results, and contribute to problem-solving within the laboratory setting.

MACHINES HANDLED:

- **BiOLiS 24i Premium**
- **EasyLyte**
- **H8**
- **VIDAS**
- **Wheisman AC 610**
- **Insight U500**
- **Kinghawk Coagulometer KHB 202**
- **SD biosensor F200**
- **PRESTIGE 24i HbA1c DIRECT**
- **JOKOH IoNEX - Automated Electrolyte Analyzer**
- **URIT Analyzer - Urine Analyzer**
- **ECLIA 200 - Immunology serology analyzer**
- **BiOLiS 30i Premium - Automated Chemistry analyzer (ISE Method)**
