PROFESSIONAL EXPERIENCE

Registered Nurse 02/2024 – 03/2025

Children's Medical Center - Dallas, TX, USA

Pediatric Neurological Surgery, Plastic Surgery, General Pediatrics

Children's Medical Center Dallas is consistently ranked the #1 children's hospital in North Texas and among the nation's best pediatric hospitals.

- Responded to emergency situations with speed, expertise and level-headed approaches to provide optimal care, support and life-saving interventions.
- Advocated for patient needs with interdisciplinary team and implemented outlined treatment plans.
- Monitored diet, physical activity, behaviors and other patient factors to assess conditions and adjust treatment plans.
- Helped patients and families feel comfortable during challenging and stressful situations, promoting recovery and reducing compliance issues.
- Delivered information regarding care and medications to patients and caregivers in comprehensible terminology.
- Assessed patient needs, prioritized treatment, maintained patient flows and assisted physicians with non-invasive procedures.
- Collected lab specimens, ordering and interpreting diagnostic tests and lab results.
- Updated charts throughout shifts with current, accurate information to maintain strict recordkeeping standards.
- Collaborated with physicians, nurses, therapists, social workers and other healthcare professionals to develop individualized treatment plans for each patient.
- Provided patient care and education to patients with chronic illnesses.
- Assisted physicians during examinations or surgical procedures.

CLINICAL EXPERIENCE

Capstone: Neonatal ICU (NICU)

Baylor University Medical Center – Dallas, TX, USA

A comprehensive clinical capstone rotation in the Neonatal Intensive Care Unit, providing hands-on experience in the care of critically ill and premature newborns.

- Collaborated closely with a multidisciplinary team to deliver evidence-based, family-centered care in a high-acuity environment. Gained proficiency in neonatal assessments, thermoregulation, oxygen therapy, and nutritional support, including gavage and parenteral feeding.
- Assisted in the administration of medications and monitored vital signs, growth parameters, and early signs of complications.
- Developed strong skills in compassionate communication with families during high-stress situations. This experience reinforced clinical confidence, critical thinking, and the ability to provide specialized care to the most vulnerable patients.
