## Profile

Dedicated and detail-oriented Registered Nurse with a B.Sc. in Nursing and certification in Hospital Administration, offering over 10 years of clinical experience in Intensive Cardiac Care Units (ICCU) and Cardiac ICUs. Passionate about providing high-quality patient care, managing critical conditions, and ensuring clinical excellence through evidence-based practice. Seeking to contribute clinical expertise and compassionate care in a challenging healthcare environment.

## Work Experience

05/2019 – present  
India

### Staff Nurse | Hiranandani Hospital, Mumbai | Intensive Cardiac Care Unit (ICCU)

- Deliver round-the-clock critical care for cardiac emergencies including MI, arrhythmias, and post-angioplasty monitoring.
- Operate advanced life support equipment including ventilators, defibrillators, and infusion pumps.
- Collaborate with physicians for patient treatment plans and monitor vital signs continuously.
- Maintain accurate nursing documentation, administer medications, and ensure infection control compliance.
- Educate patients and families regarding post-treatment care and cardiac health management.

09/2013 – 10/2015

### Staff Nurse | Bombay Hospital & Medical Research Centre, Mumbai | Intensive Cardiac Care Unit (ICCU)

- Administered medications, maintained charts, and provided bedside care for critically ill cardiac patients.
- Coordinated with multidisciplinary teams for patient management and recovery protocols.
- Managed ICU equipment, conducted ABG analysis, and monitored ventilator settings.
- Handled pre- and post-angiography care including emergency response for cardiac collapse.
- Maintained a sterile environment and ensured proper biomedical waste disposal.
