DHQ Hospital in Matrenl, Newborn, and Child Health Program (MNCH)
by WHO Hattian Bala, AJK, Pakistan.

- Performed routine and specialized laboratory tests in Hematology, Biochemistry, Microbiology, and Clinical Pathology.
- Operated and maintained advanced diagnostic equipment, ensuring calibration and quality control.
- Managed and validated laboratory results before reporting, ensuring accuracy and compliance with NABL standards.
- Participated in training and supervising interns and junior technicians.
- Implemented and adhered to laboratory safety protocols, infection control practices, and biomedical waste management

Lab Technician

Rural Health Center (RHC) Khalana, under DHQ Hattian Bala, AJK,
Pakistan.

Jul 2019 - Nov 2020

- Collected, labeled, and processed patient specimens for analysis.
- Conducted routine tests in clinical pathology, including urine analysis, blood counts, and biochemistry panels.
- Assisted in operating semi-automated and fully automated lab instruments.
- Maintained daily logs and ensured timely reporting of test results to clinicians
- Followed infection control and biosafety measures while handling samples,

Lab Technician

Combined Military Hospital (CMH), Muzaffarabad, AJK, Pakistan.

Apr 2017 - Feb 2019

- Observed and assisted in performing various hematology tests such as CBC, ESR, and peripheral smear examination.
- Observed and practiced the operation of analyzers and manual test methods.
- Gained exposure to internal lab workflow, sample processing, and result validation.
- Ensured cleanliness and safety of the work area and proper handling of biohazard materials

GENERAL DUTIES

Blood Bank

- Handled blood grouping, cross matching, and compatibility testing.
- Maintained blood inventory and donor records systematically.
- Ensured proper storage, labeling, and handling of blood products.

Hematology

- Performed complete blood count (CBC), ESR, and peripheral smear analysis with accuracy.
- Skilled in operating hematology analyzers and interpreting results.
- Ensured proper sample collection and handling for reliable outcomes.

Microbiology

- Conducted culture and sensitivity tests on clinical specimens.
- Skilled in identifying bacterial, fungal, and parasitic infections.
- Maintained aseptic techniques and proper incubation conditions

Biochemistry

- Performed routine and specialized biochemical tests (e.g., liver, renal, lipid profile).
- Operated automated analyzers for high-volume sample processing.
- Ensured quality control and calibration of equipment.

Clinical Pathology

- Handled urine, stool, and body fluid examinations efficiently.
- Interpreted microscopic and macroscopic findings for diagnostic purposes.
- Maintained accurate records of test results and reporting.

Serology

- Conducted tests such as Widal, VDRL, CRP, and HIV screening.
- Ensured accuracy and precision in antigen-antibody reactions.
- Followed biosafety procedures to prevent cross-contamination.

CORE STRENGTHS

- Technical Proficiency
- Microscopic cell specialist
- Blood CBC and Semen analysis expert
- Quality Assurance and Compliance
- Advanced Technical Expertise
- Problem-solving and Critical Thinking
- Diagnostic Accuracy

CORE STRENGTHS

- Dilution Factor Calculation
- Data Analysis and Reporting
- Compliance and Ethics
- Mathematical calculation
- Supervisory Responsibilities
- Team Collaboration
- Continuing Professional Development
